

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ARKANSAS, Central and North Central				
(AR-Z030) LOGAN, (AR-Z037) SCOTT, (AR-Z038) YELL, (AR-Z039) PERRY, (AR-Z040) POLK, (AR-Z041) MONTGOMERY, (AR-Z042) GARLAND, (AR-Z043) SALINE, (AR-Z044) PULASKI, (AR-Z045) LONOKE, (AR-Z046) PRAIRIE, (AR-Z047) MONROE, (AR-Z052) PIKE, (AR-Z053) CLARK, (AR-Z054) HOT SPRING, (AR-Z055) GRANT, (AR-Z056) JEFFERSON, (AR-Z057) ARKANSAS, (AR-Z062) DALLAS, (AR-Z063) CLEVELAND, (AR-Z064) LINCOLN, (AR-Z065) DESHA, (AR-Z066) OUACHITA, (AR-Z067) CALHOUN, (AR-Z068) BRADLEY, (AR-Z069) DREW				
	04/01/11 00:00 CST		0	Drought
	04/30/11 23:59 CST		0	
Early in April, severe drought covered the southern half of Arkansas, as well as much of western Arkansas. Extreme drought covered parts of southern Arkansas. Rain during the month led to substantial improvement. By the end of April, only a few counties in the extreme south were experiencing severe drought.				
BOONE COUNTY --- (HRO)HARRISON ARPT [36.27, -93.15]				
	04/01/11 00:00 CST		0	Heavy Rain
	04/30/11 23:59 CST		0	Source: ASOS
The reporting station at Harrison recorded its wettest April ever.				
BOONE COUNTY --- LEAD HILL [36.42, -92.90]				
	04/01/11 00:00 CST		0	Heavy Rain
	04/30/11 23:59 CST		0	Source: COOP Observer
The reporting station at Lead Hill recorded its wettest April ever.				
FULTON COUNTY --- MAMMOTH SPG [36.48, -91.48]				
	04/01/11 00:00 CST		0	Heavy Rain

The reporting station at Mammoth Spring recorded its wettest April ever.				
FULTON COUNTY --- SALEM [36.37, -91.82]				
	04/01/11 00:00 CST		0	Heavy Rain
	04/30/11 23:59 CST		0	Source: COOP Observer
The reporting station at Salem recorded its wettest April ever.				
MONTGOMERY COUNTY --- 1.0 E HOPPER [34.35, -93.66]				
	04/01/11 00:00 CST		0	Heavy Rain
	04/30/11 23:59 CST		0	Source: COOP Observer
The reporting station at Hopper recorded its wettest April ever.				
PIKE COUNTY --- LANGLEY [34.32, -93.83]				
	04/01/11 00:00 CST		0	Heavy Rain
	04/30/11 23:59 CST		0	Source: COOP Observer
The reporting station at Langley recorded its wettest April ever.				
Widespread drought conditions existed at the beginning of April. However, rain picked up considerably over most areas during the month. In what ended up being a complete turn-around in conditions, several reporting stations ended up with their wettest April ever recorded.				
WOODRUFF COUNTY --- PATTERSON [35.25, -91.23], 0.1 NNW RIVERSIDE [35.28, -91.23], 1.0 WNW RIVERSIDE [35.28, -91.25], 0.2 SSW CAVELL [35.25, -91.25]				
	04/01/11 00:00 CST		5K	Flood (due to Heavy Rain)
	04/06/11 23:00 CST		10K	Source: River/Stream Gage
The Cache River at Patterson remained above flood stage from late March into the first week of April.				
(AR-Z003) BOONE, (AR-Z004) MARION, (AR-Z005) BAXTER, (AR-Z006) FULTON, (AR-Z007) SHARP, (AR-Z012) NEWTON, (AR-Z013) SEARCY,				

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
(AR-Z014) STONE, (AR-Z015) IZARD, (AR-Z016) INDEPENDENCE, (AR-Z021) JOHNSON, (AR-Z022) POPE, (AR-Z023) VAN BUREN, (AR-Z024) CLEBURNE, (AR-Z025) JACKSON, (AR-Z030) LOGAN, (AR-Z031) CONWAY, (AR-Z032) FAULKNER, (AR-Z033) WHITE, (AR-Z034) WOODRUFF, (AR-Z037) SCOTT, (AR-Z038) YELL, (AR-Z039) PERRY, (AR-Z040) POLK, (AR-Z041) MONTGOMERY, (AR-Z042) GARLAND, (AR-Z043) SALINE, (AR-Z044) PULASKI, (AR-Z045) LONOKE, (AR-Z046) PRAIRIE, (AR-Z047) MONROE, (AR-Z052) PIKE, (AR-Z053) CLARK, (AR-Z054) HOT SPRING, (AR-Z055) GRANT, (AR-Z056) JEFFERSON, (AR-Z057) ARKANSAS, (AR-Z062) DALLAS, (AR-Z063) CLEVELAND, (AR-Z064) LINCOLN, (AR-Z065) DESHA, (AR-Z066) OUACHITA, (AR-Z067) CALHOUN, (AR-Z068) BRADLEY, (AR-Z069) DREW				
	04/03/11 07:00 CST		1.32M	Strong Wind (MAX 45 kt)
	04/04/11 05:00 CST		0	
Strong south to southwest winds occurred from around dawn on the 3rd to just before dawn on the 4th. Winds gusted from 30 to 40 mph in most areas, but a few gusts were in the range of 45 to 50 mph. The winds were in advance of a cold front and were strong enough to bring down tree limbs and power lines. In Clark County, a fence blew over and ruptured a natural gas line.				
(AR-Z015) IZARD, (AR-Z040) POLK, (AR-Z052) PIKE, (AR-Z056) JEFFERSON				
	04/03/11 15:00 CST		0	Wildfire
	04/06/11 13:45 CST		0	
Drought continued into April over most of Arkansas. Periodic episodes of low humidities and very gusty winds led to conditions favorable for wildfires.

	04/04/11 10:22 CST		10K	Thunderstorm Wind (EG 52 kt)
	04/04/11 10:22 CST		0	Source: Public
Several trees fell onto roads.				
<p>A strong cold front pushed into Arkansas on the 4th. In advance of the front, warm, moist air was in place. The atmosphere was more unstable than it had been any time so far this year. As a result, severe thunderstorms erupted along and ahead of the cold front. Numerous instances of wind damage occurred, especially in the southern half of the state. An isolated tornado occurred in Clark County.</p>				

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A tree, uprooted by an EF1 tornado, landed on a tractor shed (background) and destroyed a canning shed (foreground) near Whelen Springs, AR (Clark County) on the morning of April 4, 2011. Photo by John Robinson, WCM, WFO Little Rock.

WOODRUFF COUNTY --- PATTERSON [35.25, -91.23], 0.1 NNW RIVERSIDE [35.28, -91.23], 1.0 WNW RIVERSIDE [35.29, -91.25], 0.2 SSW CAVELL [35.25, -91.25]

04/08/11 18:00 CST	5K	Flood (due to Heavy Rain)

After a brief period below flood stage, the Cache River at Patterson once again rose above flood stage.

HOT SPRING COUNTY --- 0.4 S BISMARCK [34.31, -93.17]

04/11/11 04:38 CST	15K	Thunderstorm Wind (EG 52 kt)
04/11/11 04:38 CST	0	Source: Emergency Manager

A shed roof was blown off, a carport was damaged, and trees were blown down.

FAULKNER COUNTY --- 1.1 W CANEY [35.07, -92.40], 0.6 SE CANEY [35.06, -92.37]

04/11/11 04:40 CST	50K	Thunderstorm Wind (EG 55 kt)
04/11/11 04:41 CST	0	Source: NWS Storm Survey

A mobile home was blown off its foundation and had its roof torn off. This mobile home was nearly broadside to the wind and adjacent to an open field, so there was little to break the force of the wind. The resident was not home at the time. Trees were blown down, with one tree falling on a house. Fences were blown down. A carport was destroyed. The roof of a porch collapsed. Power lines were knocked down. The damage occurred along the southeastern city limits of Conway and was primarily confined to Hopkins Lane, Rowlett Lane, Arkansas Highway 286, Skunk Hollow Road, Odom Road, and Brewer Road.

Trees and power lines were blown down.				
Scattered thunderstorms entered northwest Arkansas late on the evening of the 10th. The storms soon developed into a line while sweeping eastward. The majority of the storms exited the eastern side of the Little Rock County Warning Area by mid-morning of the 11th. Wind damage occurred in several areas with the line, but in each instance, the severe weather covered only a small area. Meanwhile, a new line of storms took shape from near Hot Springs to west of Camden around mid-morning on the 11th. This line produced isolated wind damage as it moved to the east. It passed east of the Mississippi River early in the afternoon.

A house on U.S. Highway 167 had its roof and chimney damaged. Ironically, this same house had been damaged by a tornado 30 years ago. A mobile home had its roof and porch blown off. Numerous trees and power lines were blown down. Several houses suffered damage from falling trees. The roof of a country club was blown off, allowing water to pour inside and ruin a new wood floor that had just been installed. The tornado exited Saline County northeast of Lakeside and continued into Pulaski County west-northwest of Woodson.

This tornado's track was entirely within the city limits of Little Rock. It touched down southwest of the intersection of W. Markham and John Barrow Rd. and ended in the Sherrill Heights neighborhood. While there was some shingle damage to houses, the vast majority of the damage was due to trees falling on houses and vehicles. The Leawood subdivision and The Heights were hard-hit. A Red Cross survey indicated two houses were destroyed, 36 suffered major damage, 49 had minor damage, and 37 others were affected. As of 7:00 AM CDT on the 15th, the Little Rock Police Department reported more than 40 streets blocked by fallen trees. A 34 year-old woman and her 7 year-old son were killed on Cynthia Dr. when a huge tree fell into the bedroom of their house. The root system of the tree was so large that it lifted a shed off the ground. On the same block, another huge tree was uprooted and the tree pulled natural gas lines out of the ground as it fell.				
Direct Fatalities: F34PH, M7PH

A tornado touched down near the Arkansas River levee and tracked through the Lands End Plantation. On the plantation, the trailer of a tractor-trailer truck was overturned, an old cotton gin was destroyed, and a 150 year-old pecan orchard was severely damaged. After leaving the plantation, numerous large trees were blown down and outbuildings were damaged. A mobile home was destroyed and its occupant was badly injured. Another mobile home was knocked off its foundation. A 250-gallon propane tank was ripped from its foundation and came unplugged. The tornado exited Pulaski County north-northeast of Wampoo and continued into Lonoke County west-southwest of Willow Belle.

A 56 year-old man was killed when a large tree fell into a recreational vehicle in which the man was staying. A nearby car was also damaged by the tree.

Direct Fatalities: M56MH

LONOKE COUNTY --- 2.6 W PETTUS [34.65, -91.97], 4.1 NNW CULLER [34.70, -91.86]				
	04/15/11 01:17 CST		20M	Tornado (EF2, L: 6.98 mi , W: 200 yd)
	04/15/11 01:26 CST		50K	Source: NWS Storm Survey

A tornado destroyed 51 large steel power transmission towers. These towers carried 500 kilovolt transmission lines. For the most part, the towers fell into open farm fields, but one fell into a pond on a fish farm. The power cables that fell with the towers blocked a number of roads, including Arkansas Highway 31. Power poles, power lines, and trees were blown down as well.

DESHA COUNTY --- ARKANSAS CITY [33.62, -91.20]	04/15/11 04:15 CST		10K	Thunderstorm Wind (EG 52 kt)
	04/15/11 04:15 CST		0	Source: Public
Trees were blown down and there was minor damage to a gas station.				
<p>A cold front and strong area of low pressure aloft approached Arkansas on the 14th. The result was an outbreak of severe weather from the evening of the 14th through the pre-dawn hours of the 15th. Several tornadoes occurred. Additionally, storms developed into line segments which often bowed out, creating damaging thunderstorm winds.</p>				

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A power transmission tower was mangled by an EF2 tornado near Pettus, AR (Lonoke County) early on the morning of April 15, 2011. The EF2 tornado destroyed 51 of the transmission towers, which supported a 500 kilovolt electric transmission line. Photo by John Robinson, WCM, WFO Little Rock.

WOODRUFF COUNTY --- PATTERSON [35.25, -91.23], 0.4 NNE RIVERSIDE [35.29, -91.23], 1.1 NW RIVERSIDE [35.29, -91.25], 0.1 W CAVELL [35.25, -91.25]

04/16/11 00:00 CST	10K	Flood (due to Heavy Rain)
04/30/11 23:59 CST	50K	Source: River/Stream Gage

Heavy rainfall from spring thunderstorms caused the Cache River at Patterson to rise back above flood stage during the middle of the month. Additional very heavy rainfall kept the river above flood stage through the rest of the the month, and into the month of May.

	04/23/11 18:59 CST		0.50M	Tornado (EF1, L: 28.02 mi , W: 880 yd)
	04/23/11 19:54 CST		0	Source: NWS Storm Survey
This tornado exited Madison County south of Red Star and entered Newton County north of Arbaugh. In Newton County, hundreds of trees were blown down, with several of the trees falling on houses and vehicles. A number of outbuildings were damaged. A chicken house and a barn were destroyed. The greatest amount of structural damage occurred just south of Wayton. Many power poles and power lines were blown down.				
SEARCY COUNTY --- DUFF [36.00, -92.77]				
	04/23/11 20:20 CST		0	Funnel Cloud
	04/23/11 20:20 CST		0	Source: Law Enforcement
A funnel cloud was sighted near Duff.				
A stationary front was located across the northern part of Arkansas on the evening of the 23rd. As low pressure aloft approached from the west, severe storms erupted. One of the storms, located along the front, spawned a tornado.

	04/30/11 23:59 CST		0.10M	Source: River/Stream Gage
Several rounds of very heavy rainfall during the latter half of April caused many rivers across Arkansas to rise above flood stage. Rainfall amounts of 5 inches to well over 10 inches were seen, with much of that rain falling in a period of less than a week. Additionally, water from heavy rains in Missouri began flowing down into Arkansas. Thus began the Great Flood of 2011. In many cases, at least moderate flood levels were reached on area rivers, with several rivers rising into the major flood stage category. There were even some rivers that reached all-time record levels. Thousands of acres of farm land were inundated, destroying millions of dollars of crops. Countless homes and business were flooded. Roads became impassable for several days and even weeks. Much of the flooding persisted into the month of May.

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/25/11 16:02 CST		5M	Tornado (EF2, L: 14.44 mi , W: 300 yd)
	04/25/11 16:24 CST	10	0	Source: NWS Storm Survey

This tornado affected areas around the Bear community, Brady Mountain Rd., the eastern end of Lake Ouachita, and Lake Ouachita State Park. A Red Cross survey indicated approximately 1 house destroyed, 4 houses and 3 mobile homes with major damage, 16 houses and 9 mobile homes with minor damage, and 3 houses and 1 mobile home affected. A large metal building that once housed a golf academy sustained severe damage, with the roof torn off and metal girders twisted. A camping trailer was blown into a field and destroyed. Several outbuildings were destroyed. Hundreds of trees were knocked down or snapped off. Numerous power lines were blown down. Considerable damage occurred at Lake Ouachita State Park. A portion of the tornado's track was determined during an aerial survey by the Arkansas Forestry Commission.

04/25/11 17:16 CST	20	0	Source: NWS Storm Survey

Homes were destroyed in the Walnut Valley, Ozark Lithia, Ranch Estates, and Mountain Valley areas. Church buildings and the Teen Challenge building on Arkansas Highway 7 were badly damaged. Vehicles were piled up in the parking lot of the church. An 8-month old baby was killed in the Walnut Valley area. A Red Cross survey indicated approximately 25 houses and 21 mobile homes were destroyed, 22 houses and 5 mobile homes suffered severe damage, 18 houses and 4 mobile homes had minor damage, and 5 houses and 2 mobile homes were affected. A two-story house had its top floor removed. Several outbuildings and a well-constructed barn were destroyed. A portion of the tornado's track was determined during an aerial survey by the Arkansas Forestry Commission. This tornado exited Garland County northwest of the incorporated portion of Fountain Lake and entered Saline County in Hot Springs Village.

Direct Fatalities: M1PH

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
This tornado exited Pulaski County 1.31 miles northeast of Natural Steps and moved into Faulkner County 2.42 miles south of Palarm. It crossed a tiny, peninsula-shaped area of Faulkner County adjacent to the Arkansas River. This section of Faulkner County is uninhabited, so damage was limited to some trees being blown down. The tornado then exited Faulkner County 2.06 miles south of Palarm and entered another section of Pulaski County 1.93 miles northeast of Natural Steps.

	04/25/11 18:38 CST	15	0	Source: NWS Storm Survey
This tornado exited Pulaski County north-northwest of Morgan and re-entered Faulkner County east-southeast of Mayflower. In Faulkner County, it first moved through the northwest part of Camp Joseph T. Robinson, a National Guard facility. Thousands of trees were blown down in the area of Arkansas Highway 89 and Clinton Rd. In addition, numerous power lines were blown down and some homes and outbuildings were damaged. Similar damage occurred as the tornado continued moving to the northeast. At the Black Oak Ranch Estates mobile home park, numerous mobile homes were destroyed and four people were killed. Two of the victims, a 63 year-old man and a 55 year-old man, were in separate mobile homes. The other two victims, a man and his wife, both 45 years-old, had left their mobile home and taken shelter in a large, metal, intermodal shipping container. The tornado carried the container approximately 150 yards, depositing it on the bank of a pond. The tornado next moved through Vilonia, causing damage to residences over a large part of the town. Businesses along U.S. Highway 64 were also damaged. Also on the highway, two tractor-trailers overturned, with one of them spilling its load of food products. After leaving Vilonia, the tornado continued on to the northeast. Additional trees were blown down, and houses and outbuildings were damaged or destroyed. The Red Cross indicated that approximately 34 houses and 62 mobile homes were destroyed, 91 houses and 41 mobile homes suffered major damage, 145 houses and 43 mobile homes had minor damage, and 53 houses and 38 mobile homes were affected. The tornado then exited Faulkner County south of Mount Vernon and moved into White County west of Hammonsville.

Most of this tornado's path was through Little Rock Air Force Base. At least five C-130 aircraft were damaged, three of them severely. A number of buildings in the base shopping area and flight line area suffered damage, including having roofs torn off. The fire station had its roof taken off and its doors buckled. Altogether, more than 20 tons of sheet metal from roofs and buildings was recovered for recycling. Cars were overturned in the parking lot of the Base Exchange. More than 135 houses in the base housing area were damaged or destroyed. A toilet from a house in the base housing area was found lodged in the roof of the Base Exchange shopping center, more than 1/2 mile away. Four people were injured at the air base. North Pulaski High School also suffered damage. The auditorium had its roof torn off and one wall collapsed. A wall of the chemistry building collapsed, weakening the roof of a building that housed 15 classrooms.

From the 24th through the 27th, the arrival of a slow-moving cold front and several low pressure areas aloft triggered several rounds of thunderstorms. Tornadoes, severe storms, and flash flooding resulted. Widespread areal flooding followed the flash flooding. Some of this flooding was due to heavy rain, while some of it was caused by water from rivers, creeks, and bayous backing up onto the land. On the evening of the 25th, devastating tornadoes affected several areas in central Arkansas. More than 140,000 electric customers in Arkansas lost power. Heavy rains during this period were the beginning of the Great Flood of 2011 in Arkansas. Much of the flooding lasted well into May, and some even continued all the way to late June.

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A church building was badly damaged by an EF3 tornado early on the evening of April 25, 2011, in the Ozark Lithia, AR area (Garland County). Photo by Allen Adkins, Electronics Technician, WFO Little Rock.
